Runway Safety Area Environmental Document

The Madison County Executive Airport Authority is planning to construct improvements to the Runway 18 Runway Safety Area. These improvements will include embankment to raise the level of the Runway Safety Area above the 100 year flood plain elevation. The improvements will also include installing perimeter wildlife fencing around the perimeter of the Runway Safety Area.

An Environmental Assessment Document has been performed within the guidance in Federal Aviation Administration (FAA) Orders 1050.1F – Environmental Impacts: Policies and Procedures, and the Environmental Desk Reference for Airport Actions and 5050.4B – NEPA Implementing Instructions for Airport Actions.

This Environmental Assessment Document is available for review by the public at the Airport Authority's Terminal Building. Comments from the public will be addressed but must be received within the 30 day period following this advertisement. The date of this advertisement is November 17, 2021 therefore the 30 day period ends on December 16, 2021.
